Superfruit ice cream

Key benefits

- Reduced sugars
- Source of fibre
- Source of protein

Solutions

- **Short-chain fructooligosaccharides** are used to replace part of the sugars, while the fibre content is also increased.
- **Faba bean protein concentrate** is added to increase further the protein content, whereby it is possible to make a source of protein claim.

Recipe

Ingredients	(% w/w)
Superfruit ice cream	
Skimmed milk	54
Cream	24
Glucose syrup	9
Whey protein concentrate	4
Beneo-scFOS	**4**
Milk protein	3
Sugar	1
Faba bean protein concentrate	**1**
Minor ingredients (e.g. emulsifier, stabiliser, flavours)	q.s.

When developing a final product, the food legislation and product standards for each country under consideration must be taken into account. Formulation and application proposals are recommendations serving only as basic information. All parameters have to be tailored to the individual conditions and equipment. No freedom from patent is implied.
